

# PTFE Lined Sight Glass for Oil Pipeline

- Elite lined sight glass provides reliable and safe visual indication of fluid flow on any corrosive service. Safe and shatter-proof, each window consists of two tempered lime glasses cemented together by a proprietary adhesive.
- Easy visual quality control and inspection. Fluid flow can be viewed from either top or bottom.
- No product retention when installed vertically.
- Elite lined sight glass can be widely used in corrosive services in chemical and petrochemical plants, pharmaceutical plants, and food and beverage processing.

<b>Body Material</b>	WCB, ASTM A395 , CF8 ,CF8M
<b>Lining Material</b>	PTFE , PFA , PO ,FEP
<b>Nominal Diameter</b>	1/2"-10"(DN15~DN250)
<b>Pressure Range</b>	Class150 , PN10 , PN16

Model NO.: SGPFA-150LB  
 Material: Carbon Steel  
 Body Material: Wcb+PFA

Connection: Flange  
 Diameter: Dn25~500  
 Treatment: Epoxy Painting  
 Transport Package: Plywood Case

Specification: TS, CE, SGS
